

28/03/2023

Dear Nature Forever Society Team,

Thank you for submitting your application. I am pleased to convey that the Partnership Committee has now reviewed your application positively and welcomes Nature Forever Society as Actor for the [UN Decade on Ecosystem Restoration 2021-2030](#).

Thousands of ecosystem restoration initiatives are already driving positive changes on the ground and we want to thank you for being part of this global movement. The UN Decade aims at supporting the acceleration of such initiatives and providing the platform for them to connect. We hope that you will be able to actively support us in our mission by helping with communication initiatives and activities at the national or sub-national levels, providing content to the [Digital Hub](#), promoting the UN Decade and its activities through your own channels and networks, and even co-organize public events.

To some, a decade may sound like a long time. But it is these ten years that scientists tell us matter most in our fight against catastrophic climate change, and in protecting the one million species currently threatened with extinction. Reviving hundreds of millions of hectares across terrestrial and marine ecosystems is a daunting task. It cannot be met by any one entity alone. For the next ten years, every action matters. Every single day.

Through this communication, we are inviting you to use the UN Decade's [visual identity](#) for your communication products linked to the UN Decade – for example as part of your website, publications or other relevant materials. This includes the [logo](#) which you can adapt and of which you can make your own versions which best suits your organization. Please consult our [brand guide](#) for further advice on logo use. In turn, we kindly ask you to set up a page on your website that links to the UN Decade's website. Please also send us a high-resolution vector graphic of the latest version of your logo.

We recommend that you follow [www.decadeonrestoration.org](http://www.decadeonrestoration.org) for updates and, if you have not done so yet, please [sign up](#) to follow all relevant announcements and events.

In case of any questions, please feel free to reach out to:

- Jean-Philippe Salcedo, Partnerships Coordinator
- Ann-Kathrin Neureuther, Communication Coordinator

We are looking forward to following your journey and realizing our shared ambitions under this UN Decade together with you. Thank you for being part of [#GenerationRestoration](#), on behalf of the Food and Agriculture Organization of the United Nations (FAO) and the UN Environment Programme (UNEP), along with all UN Decade partners.

Yours sincerely,

Jean-Philippe Salcedo  
Partnership Coordinator,  
UN Decade on Ecosystem Restoration
